## **GENERAL PROVISION:**

1. Permittee shall maintain temporary erosion control measures at all times during construction necessary to prevent erosion onto adjacent parcels of land, public waters, watercourses and rights of way. Temporary erosion control measures comprise staked straw bales, straw mulch, pollution curtains, filter cloth, etc.
2. Permittee shall install permanent erosion control measures (sod, seeding, wood fiber blanket, etc.) within seven (7) days of completion of final grading or the termination date of this permit, whichever comes first.
3. No changes in plans or specifications (copy hereto attached) can be made to the work authorized herein unless such change is first approved in writing by the city zoning authority.
4. Zoning compliance shall not be issued until all the provisions and conditions of this permit are complied with in full.
5. The granting of this permit does not exempt the permittee from having to secure other permits from other state, federal or local units of government which may have jurisdiction over portions of the authorized project.
